

AHAMED MANSOOR A

Bengaluru, India | +91-7010932552 | ahamedamansoor.dev@gmail.com | linkedin.com/in/ahamedamansoor | ahamedamansoor.dev

PROFESSIONAL SUMMARY

Senior Software Engineer with 6+ years of experience architecting and scaling enterprise B2B SaaS applications for global clients. Deep specialization in Angular and React, with a consistent track record of delivering measurable performance gains, building reusable component architectures, and leading and mentoring distributed engineering teams. Recognized with 19 internal awards, including 2 “Great Impact” honors, for driving high-value technical initiatives. Passionate about adopting emerging technologies and leveraging AI-assisted development tools (Claude, GitHub Copilot, Codex, Windsurf) to accelerate delivery and elevate code quality.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, SASS, JavaScript (ES6+), TypeScript, Angular (8–21), React, React Router, Zustand, Next.js, RxJS, Bootstrap, D3.js, AG-Grid, SVG, Canvas
- **Backend & Tooling:** Node.js, Go, REST APIs, Docker, Jenkins, SonarQube, Playwright, Jasmine, Git, Azure, Webpack, Figma, Pixel Perfect Pro
- **AI & Design Tools:** Claude, GitHub Copilot, Windsurf, Codex, Perplexity, Gemini, ChatGPT, Grok
- **Practices:** Component-Driven Architecture, Performance Optimization, Accessibility (a11y), CI/CD, Code Review, Mentoring, Agile/Scrum, Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

Cisco Systems India Pvt. Ltd.

July 2021 – Present

Senior Software Engineer – Frontend

Bengaluru, India

Crosswork Network Controller – Enterprise network analysis and management platform

- Designed, developed, and maintained enterprise-scale frontend applications for network management platforms used by global customers
- Architected and led development of **31 reusable Angular components**, establishing organization-wide UI component standards adopted across multiple product teams
- Delivered a **46% performance improvement**, cutting login and page-load times from 12s to 6.5s through targeted code and rendering optimizations
- Re-engineered device CSV export pipeline for **25,000+ devices**, reducing processing time by **89%** (75s → 8s)
- Led Angular framework migrations from version 8 to 21, ensuring long-term maintainability and adoption of modern best practices
- Converted business requirements and UX designs into responsive, accessible, and user-friendly interfaces
- Integrated SonarQube with Jenkins CI/CD pipeline, enforcing **75%+ code coverage** and a **100% test pass-rate gate** for all pull request approvals
- Introduced Playwright for automated visual regression testing and promoted structured technical documentation using Mermaid diagrams
- Drove multiple proof-of-concept initiatives on AI integration and agentic AI workflows to enhance application capabilities and developer productivity
- Led the India frontend team by driving technical discussions, mentoring engineers, and conducting code reviews; participated in Agile ceremonies including sprint planning, estimation, and backlog refinement
- Collaborated with product managers, UX designers, backend developers, DevOps, and QA to deliver high-quality features
- **Technologies:** Angular 8–21, TypeScript, RxJS, React, React Router, Zustand, Next.js, JavaScript ES6, HTML5, CSS3, SASS, Bootstrap, Jasmine, Playwright, Docker, Jenkins, SonarQube, D3.js, SVG, Canvas, Claude, GitHub Copilot, Windsurf

Infrd.ai

January 2020 – May 2021

Software Developer – Frontend

Bengaluru, India

Home Genius – Virtual real estate brokerage platform

- Developed the platform’s core frontend using **React**, building end-to-end features for property viewing, price comparison, agent communication, and online paperwork processing
- Built responsive, high-performance React UIs enabling seamless property browsing and visit scheduling for end users
- Implemented real-time chat functionality and integrated local amenity discovery to enhance user engagement
- **Technologies:** React, Redux, React Router, JavaScript ES6, HTML5, CSS3, SASS, Styled Components, REST APIs, Azure, Bootstrap, Jasmine

EDUCATION

M. Kumarasamy College of Engineering, Karur

2013 – 2017

Bachelor of Engineering in Electrical and Electronic Engineering; CGPA: 8.1/10

PERSONAL PROJECTS

CoderPod.org

Next.js, React, TypeScript, Node.js, Claude, GitHub Copilot, Windsurf, SVG, Canvas, Figma

- Built a full-stack, AI-powered coding platform for developers using Next.js and agentic AI tools (Claude, Codex, Windsurf)
- Implemented collaborative development features with GitHub Copilot integration and a pixel-perfect UI using Figma, SVG, and Canvas
